

The first global Exoskeleton User Study to collect long-term data.

How do workers profit long-term?
What's my company's benchmark?

Be part of it!

Let us **strengthen the case** for **exoskeletons** together on a neutral platform.

- One questionnaire, big data
- Longitudinal data of individual users - to understand long-term effects of exoskeletons
- Unlimited access of the survey
- Data collection is compliant with the European General Data Protection Regulation
- Available in currently 5 languages (English, German, Japanese, Spanish, Korean)
- Smartphone compatible web-based survey via QR Code
- Presentation of the status at WearRAcon conferences in US and Europe
- Free access to digital print files and online information material about the survey for your customers
- Evaluation for the manufacturer of the own exoskeleton every 2 months
- Continuously updated results of all participants in sum available online

Further languages are welcome. Please contact us.

Questions or comments welcome to exouser@ipa.fraunhofer.de
